SPECIFICATION AND INSTALLATION GUIDE

# Anvia Plug In Swing Arm Wall Lamp

A swing arm wall lamp with a cone shade and adjustable head. It screws to the wall and plugs into a US outlet. This guide covers specifications, mounting, everyday use, care and troubleshooting.

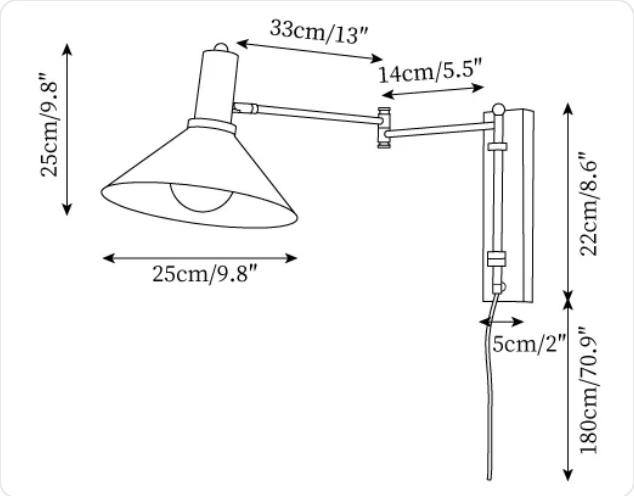

| 9.8" | 9.8" | 70.9" | E26 | US plug |
|---|---|---|---|---|
| shade diameter | height | cord with switch | bulb base | 110 to 120 V |
| 25 cm | 25 cm | 180 cm | not included | no wiring |

## 01 SPECIFICATIONS

| | |
|---|---|
| Size | 9.8" x 9.8" (25 x 25 cm) |
| Materials | Metal, powder coated |
| Colors | White, Black |
| Adjustment | Articulated arm, adjustable head angle |

| | |
|---|---|
| Power | Plug in, US plug |
| Cord | 70.9" (180 cm) with push button switch |
| Bulb | 1 x E26, LED or Edison, not included |
| Dimming | Not dimmable from the switch |
| Mounting | Wall, screw and anchor included |

## 02 DIMENSIONS

**Placement.** Beside a bed, next to a reading chair or as a pair flanking a mirror.

Dimensions are nominal and may vary slightly.

## 03 FINISHES

**White**

Powder coated white.

**Black**

Powder coated black.

## 04 IN THE BOX

- Lamp with arm, shade and cord
- Mounting plate
- Screws and anchors
- Instruction sheet

## 05 WHAT YOU NEED

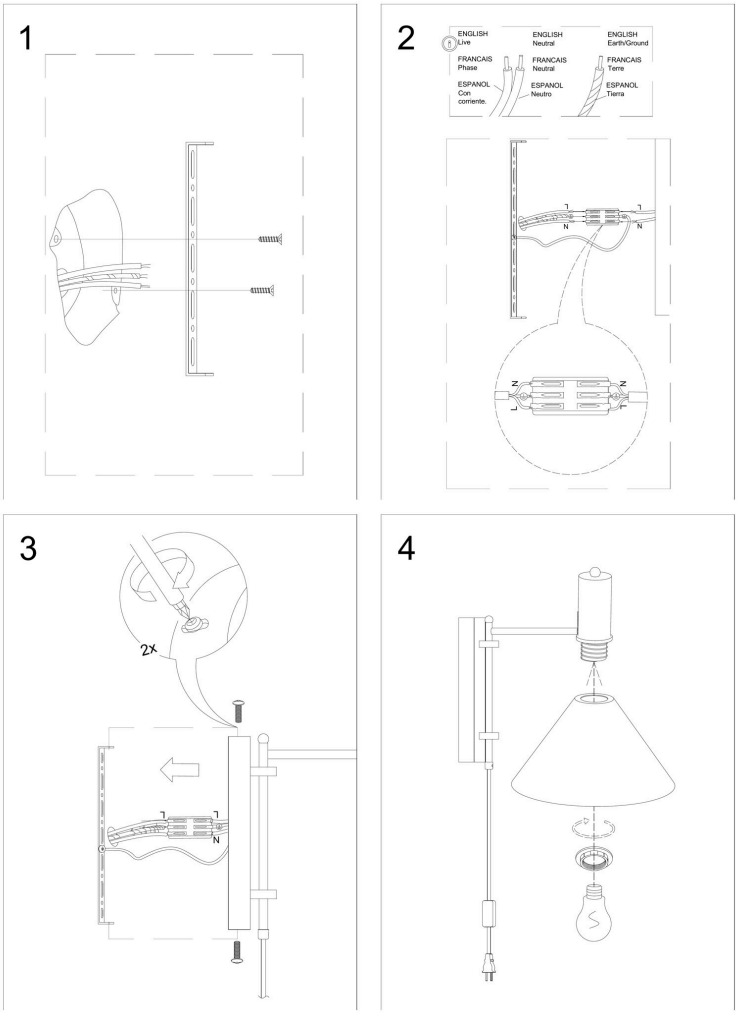

- Drill and bits to suit the wall
- Wall anchors or a stud for the screws
- Screwdriver
- Pencil and spirit level
- Tape measure

## 06 CHOOSE THE SPOT

Choose a spot within reach of an outlet.

- **Outlet:** a standard US outlet within reach of the cord.
- **Bedside:** mount so the shade sits a little above shoulder height when seated in bed.
- **Wall:** fix into a stud, or use anchors rated for drywall or masonry.
- **Cord:** plan a neat route down the wall; cord covers work well.

## 07 INSTALLATION

Mounting diagram: 1 plate, 2 hardwired option, 3 lamp body, 4 bulb and shade

**1 Fix the mounting plate**

Mark the position with a level, drill, fit the anchors and screw the plate to the wall. (Diagram step 1)

**2 Fix the lamp body**

Fit the lamp body over the plate and tighten the side screws. (Diagram step 3; the wiring in Diagram step 2 applies only to a hardwired setup and is not needed for the plug in cord.)

**3 Fit the bulb**

Screw an E26 bulb into the socket and secure the shade ring. (Diagram step 4)

**4 Plug in**

Route the cord down the wall, plug in and press the cord switch.

## 08 EVERYDAY USE

| | |
|---|---|
| On and off | Push button switch on the cord |
| Direction | Swing the arm and tilt the head |
| Dimming | Dimmable LED bulb with a plug in dimmer |

## 09 CARE

- Switch off and let the light cool before cleaning.
- Dust with a dry, soft cloth.
- Avoid water, sprays and solvents on metal and glass finishes.

## 10 TROUBLESHOOTING

| If | **Try this** |
|---|---|
| No light | Check the outlet, switch and bulb. |
| Parts missing or damaged in transit | Email Info@Lunorre.co with the order number and a photo. |

## 11 SAFETY AND REQUIREMENTS

- Plug in fixture for standard 110 to 120 V US outlets.
- Fix the mounting plate into a stud or with anchors rated for the wall.
- Indoor, dry locations only.
- Unplug before changing the bulb or cleaning.
- Route the cord so it does not cross walkways.

Dimensions and performance figures are nominal and subject to manufacturing tolerance. Questions before or after installation: Info@Lunorre.co, +13313065081. Lunorre, lunorre.co
