05 INSTALLATION

Assembly diagram: 1 tighten each shade with its ring, 2 fit the bulbs

1 Unpack and set the base
Place the lamp on a flat, stable surface near an outlet.

2 Fit the shades
Place each bloom shade and tighten it with its ring. (Diagram step 1)

3 Fit the bulbs
Press a G4 110 V bulb into each socket. (Diagram step 2)

4 Plug in and switch on
Plug in and press the push button switch on the cord.

06 EVERYDAY USE

On and off	Push button switch on the cord
Dimming	Not dimmable
Bulbs	G4 bi pin, AC 110 V only

07 CARE

- Unplug and let the bulbs cool before cleaning.
- Dust the shades and stem with a soft dry cloth.
- Keep away from water and humid rooms.

08 TROUBLESHOOTING

If	**Try this**
A bloom does not light	Unplug, reseat that G4 bulb or replace it with a 110 V G4 bulb.
Nothing lights	Check the outlet and the cord switch.

09 SAFETY AND REQUIREMENTS

- Plug in lamp for 110 to 120 V US outlets. Do not modify the plug or use it with a damaged cord.
- Indoor, dry locations only.
- Keep the cord out of walkways and away from heat sources.
- Unplug before changing the bulb or cleaning.
- Use only G4 bulbs rated AC 110 V. Never fit 12 V bulbs.

Dimensions and performance figures are nominal and subject to manufacturing tolerance. Questions before or after installation: Info@Lunorre.co, +13313065081. Lunorre, lunorre.co
